EXAMPLE:

Feta-Burgers - Next Big Burger Trend

Feta-Burgers - Potential \$250B+¹ market

Aim to obtain 3% market share over next 5 years which would double the size of our current business.

Premium pricing and same cost as non-Feta Cheeseburgers presenting a compelling investment opportunity

Problem / Market Opportunity

- Clearly state problem or opportunity that the company is trying to Leverage / Solve / Achieve
- Convey importance and size of Total Addressable Market / Served Available Market / Your Share of Market
- Include any macro supporting data that demonstrates that market opportunity is potentially growing or your ability to penetrate the market has growth potential
- Calculate your impact on the market so that financial model growth prospects can be supported
- Use Graphics / Tables / Charts / Cartoons / Etc when possible

EXAMPLE:

Feta Burgers - Large Untapped Market Due To Melting Characteristics

Cheeseburger Market
\$1 Trillion Total Expected Demand

■ Swiss ■ American
■ Cheddar ■ Feta

Feta-Burger Demand Growth Rates :
Consistent 4%+¹

Problem

Limited Feta-Burger
Supply Due to Poor
Melting

Solution / Growth Opportunities

- Clarify new market vision (if it applies) ie: Disruption or Technology
- Compare Company Solutions / Growth Opportunities to Problem / Market Opportunities
- Ensure that the Solutions / Growth Opportunities clearly create an understandable path to achieving growth
- Provide tangible cases
- Use Graphics / Tables / Charts / Cartoons / Etc when possible

EXAMPLE:

Feta Burger Melting (“FBM”) Tech Improves Taste Tests

Company Solution:
Feta Melting
Technology
“FBM”

85%² of Test Market
Preferred Feta Burgers
Made By Tech

Company seeks to obtain

Financials: Historical / Projections / Assumptions

Well-developed, tangible and supported assumptions are critical / Anyone can build a model - its much harder to have rigorously supported financials/assumptions so an investor has investment decision information

Track Record, if available, as precise as possible

Financials (Proforma and Projections) should build an easy to understand summary including potential return

Ensure that model uses assumptions in a dynamic manner so that assumptions can be changed/tested

Return potential should build off Historical / Peer / Market analysis / Case Study (ie: supportable information)

- Metrics: Revenue multiple / P/E ratio / Investment returns / Net income / EBITDA / Gross Profit / Etc)
- Reasonable time frame to achieve goals

EXAMPLE: Scaling Produces Attractive Risk Adjusted Returns

Assumptions ³	
Burgers Sold Per Year	100,000

Footnotes

All numbers and projections should have complete footnotes that enable an investor to understand how the numbers were calculated. It's best if footnotes are clear and concise

All track record information should be footnoted with an explanation as to what the track record refers and how it was calculated

Example:

- 1) Burger Joints of America, Feb 2019, “Cheeseburger Growth Projections”, www.burgerjoints.com/cheeseburger
- 2) Revenues and Expenses are obtained from Company internal sources on Feb 4, 2019 and supporting information and models for pro forma data is available upon request.
- 3) Track Record is as of Dec 31, 2018. All unrealized returns have been audited by Audit Accountants and represent current market value of each investment. Realized returns represent realized exits including all distributions. Additional information is available upon request.
